MANN'S PARCHMENT COPYING PAPER.

(Trade-Mark Registered in U. S. Patent Office.)

This Parchment Paper is **MUCH STRONGER** and shows a **CLEANER COPY** than any other ever made for the purpose. The ink is **LESS LIABLE TO SPREAD** and the paper can be written upon with a pen.

DIRECTIONS FOR COPYING.

Place a piece of blotting-board under the leaf of Copying Paper, then, with or *an*, wet the leaf. Take off surplus water with another sheet of blotting paper then place the written letter on the leaf, (floating the blotting paper under the leaf, to take up any excess of water that may yet remain;) place it in the press, and, in ten or fifteen seconds, a perfect copy will be secured.

The leaves **WILL DRY AS SMOOTH AS SILK**, if the book is placed in the press after Copying.

aa-Place oil-sheets between copies just made to prevent blending or setting off.

Another Process when many letters are to be copied.

Prepare a tin or iron box, with lid, to hold 30 blotting-pads.-(Boxes furnished, if desired.)

Put half the lot of blotters in water, let them drain off a few moments, then place a dry blotter between each wet one, give them a few moments squeeze in press and they will remain wet for three days, then take an oil-sheet, place it in the box, then lay a wet blotter, then turn leaf of Copying over on blotter then lay your letter on, then another oil-sheet, and so on; and you can copy all your letters at one time, thereby saving time. With a little care and experience, at first, as to wetting, you will be so well pleased, as never to resume the old way.

To copy **TYPE-WRITTEN LETTERS**, the leaves require **MORE MOISTURE** than they do to Copy Letters written with **PEN AND INK**.

My Dear Sirs: Director,

Referring to your letter of the 10th instant, please find herewith enclosed receipt in duplicate regarding the issue of bills for redemption and also money orders delivered to me on July 1st under my assumption of the Superintendency of this Mint on that date from Frank E. Shepard, the retiring Superintendent.

In reference to the two duplications in the receipt previously forwarded you, I have to state that the items of "surplus bullion" and "sweep" on pages 3 and 4, respectively, were stated in detail simply as a memorandum to show the amounts included in items 1 and 2 on the 1st page of the receipt.

Respectfully,

Wm. A. Skinner, Superintendent

Referring to the matter of having some one authorized to represent your office to witness the breaking of seals on our vault compartments and the resealing of such compartments when this action is necessary, I have to state that heretofore some one outside the Mint has been designated to represent the Bureau on such occasions, and as this arrangement has at times proved a serious inconvenience, I would greatly appreciate if one of the employees of this institution could be designated to represent you when it is necessary to break such seals and reseal the compartments.

I would suggest that Mr. W. P. Muncaster, who is at present our acting bookkeeper, be designated to represent you in such matters and I believe this would greatly facilitate our work and lessen the amount of bullion to be weighed at settlement.

My dear Madam Director:

Confirming my radiogram to you of this date, I have to advise that as instructed in your letter of the 7th instant, I have this day completed the coinage of 5000 pieces of the Oregon Trail Memorial half dollars - two pieces having been forwarded to you for special assay and three pieces placed in the "PIA", leaving \$2,497.50 in these coins available for distribution, although the Coiner has about \$125.00 in additional pieces which will be held temporarily should they be needed.

In this connection, I have to advise that under date of February 4th, last, I was instructed by the Treasurer of the United States to forward to the Cashier in his office \$200.00 of each and every denomination of subsidiary silver coins when minted. Will you please advise me if this instruction applies to the Oregon Trail Memorial half dollars just manufactured?

My dear Madam Director:

Referring to the operations of this Institution I beg to advise that during the month now ending preliminary arrangements have been completed to start our refinery and produce the usual quantity of fine gold and silver, and the employees of the Coining Department have been engaged in reviewing and counting the uncurrent and light weight gold coins and uncurrent subsidiary silver and minor coins received from the Federal Reserve Banks for recoinage. When the Coining Department has completed this work I thought it might be well to do a moderate amount of one cent bronze coinage until another accumulation of recoinage coins has been received. I trust this arrangement will meet with your approval and I will proceed accordingly unless otherwise directed by you.

Very respectfully,

August 26, 1933.

Director of the Mint,
Washington, D. C.

Dear Sir: Director:

I have to acknowledge receipt of your letter of the 15th instant enclosing copy of a report received by the Secretary of the Treasury from the Comptroller General of the United States dated August 17, 1933, concerning certain amounts of platinum, palladium and iridium which have accumulated at this institution during the years 1926, and 1929 to 1933, and which said report states have not been taken up into the Mint accounts.

I beg to state that the above report is in error in the statement that these metals have not been taken up in the Mint accounts. Their recovery as a refinery product has been reported on Form 950 submitted to the Bureau at the close of each pertinent fiscal year; every settlement receipt since 1934 has referred to them as being in the possession of the Cashier in such amounts as they had accumulated when the report was submitted to the Bureau, and they have appeared on the Bookkeeper's Form #76 when submitted to the Bureau at the close of each fiscal year, the same receipts having been initialed by the cashier and the above certified to by the Superintendent of this institution.

These receipts were included in the receipt given by me to the outgoing Superintendent on July 1, 1933, and a record of the number of ounces, which has also been maintained in the Bookkeeper's office in his ledger, Form 875- Departmental Metal Account, - all of which the repre-

representatives of the Office of the Comptroller General could have readily ascertained upon making proper inquiry.

There is no reason why these metals should be retained in this office so far as I can see, and I would recommend that they be forwarded to the United States Assay Office in New York City for sale, which will be done upon receiving instructions from you as to your wishes in this matter.

In this connection I beg to state that this matter was brought to the attention of the former Director of the Mint on several occasions when visiting this institution, and he advised that these metals be kept here until their market value is raised.

Respectfully,

Mark A. Skinner, Superintendent.

Today's paper print extracts from regulations relative to the receipt by the Mint of newly mined gold and its assignment for sale at the Mint, which, one of the items states that an affidavit must be filed with each deposit. In order to facilitate our handling our deposits under the new regulations (not yet received) I wish to inquire if it is possible to have the employees of this Mint authorized to take declarations of depositors of bullion that comes within the terms of the executive order of August 27, 1933. If this can be done it will not only facilitate our work but it will be of great convenience to the depositor presenting bullion in person.

Dear Sir: Director:

of Montana, relative to payment made to him September 1,
1935 for a deposit of newly mined gold at the standard price for
the month of this mint being numbered No. 1555 of August 29,
1935. At the time this deposit was received we did not have any
regulations relative to handling of deposits of newly mined gold
under the President's Executive Order of August 27, 1935, and
deposited same in the usual way.

It is to be noted by which this depositor may now re-
ceive the benefit of the increased price under the President's
Executive Order of August 27, 1935, it would seem to be
the intention of the President to issue a regulation.

My dear Sir: Director:

As requested in your letter of the 15th ultimo, I am enclosing data covering expenditures for the fiscal year 1933, anticipated expenditures for the fiscal year 1934, and estimated needs for the fiscal year 1935.

In compiling this report, it was deemed necessary to depart from the practice of showing only the differences, plus or minus, in column 2. Present amounts shown in column 3, in the "Salaries and Wages" section. The reasons for this departure are:

(1) In previous reports the amounts entered in the different columns have been the total basic and overtime pay, while for the fiscal year 1933 the entries in Column 3 represent the net amount paid to the employee, which is the basic pay less 8-1/2% deduction for the first nine months, and 10% (including overtime) for the last three months.

(2) Also, the basic compensation and overtime compensation for the first half of the current fiscal year, not subject to the deduction, and for the second half the deduction will be an amount to be determined later.

In column 2 (Current Fiscal Year's Expenditures) I have entered in detail the number of employees and the gross basic compensation at each salary rate, and also the gross overtime compensation.

In the "Difference Explanations" section under "Salaries and Wages" I have shown for 1933 the gross amounts of the basic and overtime compensations separately shown. This is followed by a summary entry showing the net amount paid and obligated and the total of the foregoing and compensation adjustments.

For the fiscal year 1934 and 1935 the gross basic and overtime compensation is shown and the difference between this total and that for 1933 is shown and carried into column "Computation of column totals."

I trust that the above will meet with your approval.

To the Director of the Mint,
Washington, D. C.

My dear Madam Director:

I am enclosing herewith a statement by Charles O. Parker of this city, which is self-explanatory.

Although Mr. Parker does not operate a custom mill, smelter or refinery, it appears that he is unable to obtain affidavit on Form TC-7 from each party from whom the gold listed by him has been purchased as provided in Article 31 of the Gold Regulations, and I would therefore recommend that upon his executing Affidavit, Form TC-8 together with Agreement of Consignor in proper form that this deposit be accepted for consignment at the advanced price.

To the Director of the Mint,
Washington, D. C.

Dear Sir:

I am enclosing communications from Mrs. Mary D. Raymond,
dated September 24, 1931, and November 14, 1931, regarding
9.74 troy ounces of 14 karat gold and rubies reported to have
been taken from Big Ben Bank, Bayre, Wisconsin, and which the
alleges has been purchased in very small amounts from the par-
ties who produced same, I list thereof being attached as her
affidavit on Form TD-7

Under the circumstances, as outlined by Mrs. Raymond,
it would not be practicable to obtain affidavits on Form TD-7
from each one of these parties, and I therefore would appreciate
your advising me as to what steps may be taken in closing this
gold for sale to the Federal Reserve Bank, and also if future
shipments of this kind may be received from Mrs. Raymond.
Kindly return these papers with your reply.

Respectfully,

As this gold is in its natural state, and has been acquired by Mr. Mayo principally in exchange for groceries, I have to request that you kindly advise me if this deposit may be accepted for consignment to the Federal Reserve Bank for sale at the market price without Form TC-7, it appearing practically impossible for Mr. Mayo to obtain same from each person from whom he has acquired this gold.

If this meets with your approval I would suggest that he also be permitted to forward the additional ten ounces of placer gold which has been acquired by him, in order that one deposit may cover all gold purchased by Mr. Mayo up to the present time, Form TC-8 to be amended accordingly.

Dear Madam Director:

Referring to Article 31 of the Regulations issued under the Executive Order of October 25th will you please advise if a person who purchases the discarded ore, commonly called the "dump" from the owner of a mine or the tailings of a mill, as the case may be, for the purpose of extracting the gold therefrom, would be considered as having recovered such gold from natural deposit and should therefore execute affidavit on Form TG-2A or if he would be classified as the purchaser of such gold and should accordingly execute Form TG-3A?

Respectfully,

Mark A. Skinner, Super-intendent.

To the Director of the Mint,
Washington, D. C.

My dear Madam Director:

Referring to your letter of the 22-d ultimo, reply to which I regret has inadvertently been delayed, forwarding letter from the General Accounting Office concerning the amount due the Estate of Allen Newton, formerly employed as a guard at this Institution, please be advised that this employee's working day was on the basis of eight hours instead of seven hours, upon which latter basis the General Accounting Office has evidently computed the amount due his estate. As computed by this office the amount is as follows:

	<u>Days</u>	<u>Hrs</u>	<u>Min</u>
18 days x 11	22	4	0
3 1/2 hrs x 11		4	4
	22		4 (4 minutes discarded)
22 days at pay @	\$13.20		\$29.04

In regard to the question of the General Accounting Office as to why he is not entitled to pay for the 30th day of March I have to advise that in view of the fact that he died at 4:35 A.M. on that date, as noted on the pay roll, it had not thought that he would be entitled to compensation therefor.

Your letters of the General Accounting Office and Pay Roll for Personal Services - Short Term - are herewith returned.

Respectfully,

Wm. A. S. Baker, Superintendent.

Dear Sir:

Replying to your letter of the 7th instant (which I exceedingly regret has been delayed owing to the illness of my private secretary who types all the correspondence for this office) I beg to say that the following weights are used on our automatic weighing machines in classifying circulated gold coins as current or uncurrent:

Double Eagles.....	513.92 grains
Eagles.....	257.21 "
Half Eagles.....	128.61 "

I would therefore say that a double eagle weighing, for example 513.99 grains should be classified as a current coin.

My dear Madam Director:

I am enclosing herewith correspondence relative to a small deposit of newly mined gold consisting of one retort weighing 3.98 troy ounces, being held at this institution, which was received from Dale W. Axe of Gray, Idaho, who died on or about the 3rd of November last.

Although proper forms were forwarded him for execution before his death, they were not returned to this institution, and I have to request that you will kindly advise me if Form TG-7A may be executed by the Public Administrator of Bonneville County, Idaho, in order that this deposit may be consigned to the Federal Reserve Bank of Kansas City, Mo., for notes of the Reconstruction Finance Corporation, or if this would not be permissible, if there are other forms which should be executed to cover payment to the Public Administrator for this gold at the standard price.

Kindly return all papers with your reply.

My dear Madam Director:

With reference to your letter of recent date regarding the consignment of old gold forwarded to this institution by Mr. F.S.Kreyer, San Angelo, Texas on October 21 last, I have to advise that most of the consignors of such material forwarded gold here with the thought that they would receive payment therefor at the higher price. Accordingly, before such deposits are entered for treatment I invariably request them to advise me if payment at the standard price of \$20.67 will be satisfactory, as such gold is not paid for at the market price.

I find that the secondary report from Mr. Kreyer was not received at this institution until December 1st Inst, when the material was promptly entered for treatment, and a check was forwarded him in payment on the 7th instant.

My dear John Treasury:

Referring to your letter of November 20th last stating that the Treasury has advised the Bureau that it will not be necessary for us to continue the exchange of our gold business plates after the close of the current calendar year, I beg to say that inasmuch as a number of shipments of our gold business plates have been sent from our stock since your letter was written, I trust this distribution may be permitted to include a small amount of this exchange only, namely, in order that the employees of the Printing Department may be kept advised in their capacity that they are not engaged in re-ordering, making and mailing unnecessary distributions from the Treasury Bureau and being otherwise inconvenienced work around the building and be enabled to better themselves, filling in as general business use of the latter end with, all of which requires about fifty percent of more than.

Our stock of our gold business plates today amounts to \$25,000.00 which is not at all large considering the amount we have had to send at times to the Mint, and I therefore trust you will permit us to continue a moderate exchange for such plates.

Mark A. Shuman, Superintendent.

As requested in your letter of the 7th instant, the following replies are made to the questions contained in the circular letter enclosed therewith, in numerical order:

1. United States Mint, at Denver, Colorado.
2. High pressure boilers, with Hawley down draft furnaces.
3. Approximately 600 tons per year.
4. Heating building, production of low pressure steam for use in Refinery and Annealing Room, and occasionally used for other purposes in the building, and hot water for general use.
5. Purchases are made as fuel is required by sending invitations for bids to at least three local dealers in coal.
6. Bids are requested for Semi-caking Bituminous Mine Run coal, to be run over a 1-1/4" screen to eliminate fines, - a statement of a recent analysis of coal to be supplied with each bid.
7. Lowest bid per ton is accepted, unless analysis indicates coal too low grade.
8. Deliveries are weighed on the wagon scale at the Mint, and payment made upon the basis of weights received, each load being inspected to guard against the receipt of excessive fine coal.
9. Payment is made, as above stated, upon delivery basis at building.

My dear Madam Director:

With reference to your letter of the 15th instant returning my report on Form 61-A, of Receipts of Gold and Silver received- December estimated- for the calendar year 1933, I have to say that practically all of the unrefined bullion from Alaska, California and Utah, noted as received during the past 11 months, was received in November, and indications pointed to the receipt of estimated amounts from said sources in December.

I am enclosing an amended report on Form 61-A, and have to advise that a very large part of the estimated receipts from Alaska have already been received from the Fairbanks Exploration Company and the Hammond Consolidated Gold Fields Company, and while the anticipated amount in unrefined bullion has not been received from Utah, a considerable excess has been received from that source in refined bullion .922 and over, and the gross total of all receipts already received and estimated will be considerably in excess of the amounts included in my first report.

Corrected proposal duly executed by the vendor is herewith enclosed together with the original proposals received from the other dealers.

In regard to the new typewriter purchased on Voucher No. 137, please be advised that bids were not obtained on the old machine which was delivered in part payment as it was not known that such action is necessary in cases of this kind, as the old machine in question was completely worn out, and I do not believe any bids could have been ob-

Referring to my consignment under date of January 8th of 5720.809 fine ounces of gold to the Federal Reserve Bank of Kansas City, under the Executive Order of October 23, for the account of the Homestake Mining Co., I have to state that this deposit when received at the Mint contained 78.46 fine ounces of silver. The gold and silver both having been produced subsequent to December 31st no deduction for the Mint charges was made from the gold content, as such charges at the time were to be taken from the silver content at the New York market price, unless the depositor claimed the higher price for the silver content of his deposit, and in view of the fact that the Homestake Mining Co. made claim for the silver contained in this consignment at the higher price no settlement for this silver has been made, which leaves the Mint charges still unpaid.

I have therefore to request that you will kindly advise me as to the proper manner of collecting the Mint charges on the above consignment amounting to \$212.94 - whether they may be paid in cash by the Homestake Mining Co. or if they would be taken from the 60¢ of the silver content to be paid the depositor, and if so, at what rate per fine ounce.

Dear Sirs:

I have the honor to acknowledge the receipt of your letter of the 10th inst. regarding the appointment of Mr. Gibson of

this office as stenographer and typist at this

institution, effective from date of

death. This appointment is probationary.

In this connection I have to advise that Mr.

Gibson's name has been selected from the Reemployment List,

Certificate No. 73, furnished by the District Manager of

the 15th Civil Service District, and beg to urge that this

appointment be approved, as at the present time we have

only one stenographer and typist and it is impossible for

one person to take care of the volume of such work at this

institution.

I am returning herewith, Standard Form No. 13, "Abstract of Official Record of Government Employee", pertaining to the services of Mr. Winthrop H. Attention is invited to the fact that in several instances, the information asked for has been omitted, and the abstract is not signed. Mr. Wright's services in the United States Assay Office, Helena, Montana, seem to have been continuous during the fiscal year 1931, but the retirement deductions for that year have been omitted.

As I am holding Mr. Wright's application for Annuity until the information asked for is at hand, I will appreciate your attention, at your early convenience.

Dear Madam Director:

I have to recommend the probational appointment of
Marshall M. Redfish as clerk at this institution, with com-
pensation at the rate of \$1600.00 per annum, effective from
date of oath.

Mr. Redfish has been selected from Certificate
4971 furnished me by the Assistant Manager in Charge of the
13th U.S. Civil Service District.

I desire to say that Mr. Redfish appears to possess
all the necessary qualifications to fill the above position in
a most satisfactory manner, and it is my judgment that it would
be in the interest of the Government to appoint him thereto,
his ability to satisfactorily perform the duties which will be
required being superior to those of all other applicants whose
names have been furnished me by the local Civil Service Office,
and who have responded to my invitation to call for an interview.

The services of this clerk are most earnestly needed
at the earliest possible moment and I would therefore appreciate
your advising me by wire of the approval of his appointment.

My dear Madam Director:

Replying to your letter of the 7th instant, an answer to which I exceedingly regret has been delayed, I have to say that the only purchases of my size made by this institution since July are as follows:

Graphite Articles.

	Sept. 1933
Special Crucible Covers	4 bids at \$8.00 each
No. 20 Standard Crucibles	4 " " 2.00 "
Special 3" stirrers	4 " " .50 "

as per blueprint herewith enclosed.

13" screen to eliminate fines

1 bid at \$2.34 per short ton
1 " 5.41 " " "
1 " 5.48 " " "
1 " 5.70 " " "

Proposals covering material of the above character as received at this institution for a number of years have shown very little deviation in prices between the different suppliers.

It is my observation that there has been no change in the range of prices since the various codes have been in effect and the same basic difference in the availability of prices offered by the different bidders, when making large purchases as above stated.

Trusting this is the information desired by you, I am,

Referring to your letter of the 10th instant relative to three bars of gold bullion of the approximate value of \$347.00 on which Mr. Warren R. Adelman of Boise, Idaho, filed a return on TC-7, I have to advise that this bullion, as stated by you, was forwarded to this Mint for purchase and under date of November 9, 1933 the matter of purchase of these bars was referred to your office by me, with the statement that these bars were melted prior to August 1, 1932, and therefore in the possession of Mr. Adelman's possession in noncompliance with the Executive Order of August 29, 1933.

Your office made reply thereto under date of November 2nd, 1933 and stated there was nothing in the order or regulations of October 25th 1933 to prevent the purchase of this gold by the Mint at the standard price of \$23.67 for each troy ounce of fine gold contained therein. Accordingly these bars were watered for treatment on November 8, 1933 and were paid for by check in the sum of \$368.47.

February 23, 1934.

Assistant District Manager,
13th U.S.C.S.C. District,
Denver, Colorado.

Dear Madam:

I am returning herewith your Certificate No. 4962 from which I have been able to select two guards for appointment at this institution, and as these names appear on the lower portion of your list it appears proper to state in the premises the fundamental requirements of this position and the qualifications which it is absolutely necessary that those selected for appointment must possess to properly discharge the duties of guard at this institution.

The values to be safeguarded in this building are of most unusual proportions, hence the guard force must be composed of men physically fit and mentally alert and who possess inherent qualities which would enable them to quickly respond to critical situations; they are therefore in an entirely different class from those who are ordinarily appointed as watchmen. When necessary they must also be physically capable of handling very heavy mail pouches of coin and large bars of gold and silver bullion.

With these requirements in mind I have accordingly examined very carefully the record of each person on your list and find that their position whereon is largely determined by

the degree of their physical disability, their preference rating being in proportion of their disability, thus placing at the bottom of the list those best qualified to meet the requirements of the position.

The civil service papers of David F. Cameron shows that he has an arrested case of tuberculosis and of slight build, and that he has had no previous experience which would indicate that he is of the type to make an acceptable guard.

Leah W. Cleaver is also an arrested tuberculosis case, of very slight build and height, and does not possess the qualifications necessary for the position of guard.

I have not therefore requested these two men to call and see me for consideration as it is clearly manifest they are not of the type desired.

I have carefully interviewed Edward J. Toland and Elyseas S. Baird and find that Mr. Toland is an arrested case of tuberculosis. He is not at all mentally alert nor does he possess the other requirements necessary. Mr. Baird is very far from being the type of man to be put into the position of guard. He lacks energy and alertness and when questioned as to whether he would be able to do heavy work if required, he replied that while he supposed he could do it he did not like to do work of that kind.

I therefore have to state that none of the foregoing men possess the requirements of guard as hereinbefore set forth.

This leaves but two men on your list for consideration, namely, Benjamin H. Seale and Walter H. Stuckey, both of whom I

have also thoroughly examined and believe that they meet the necessary requirements. I therefore feel that I can conscientiously recommend their appointment and am herewith enclosing their nomination to the Director of the Mint with the request that you will give ~~some~~ your favorable action in the premises.

Respectfully,

Mark A. Spangler, Superintendent.

In both of these offices numerous long distance and local calls are received in addition to a number of persons from the outside calling on business. Dear Madam Director:

I have to return herewith the letter of Dr. H.L. Forber dated February 16th forwarded by you to this institution with your endorsement thereon under date of the 16th ultimo and have to advise that I am enclosing copies of the only letters which appear to have been received concerning his deposit at this institution.

I have to advise that soon after this deposit was received in January the enclosed circular letter was mailed to Dr. Forber, scrap gold at that time being purchased at the statutory price of \$20.67, and answer to which does not appear to have been received by me.

I may add that his letter of February 12 was received before an answer could be made to his letter of February 14th.

Today I am in receipt of a letter from Dr. Forber copy of which is also enclosed, together with Form TO-32, and his deposit will now be entered for treatment and payment at the earliest possible date.

Respectfully,

Mark A. Skinner, Superintendent.

My dear Madam Director:

I have to recommend the temporary appointment of Miss Hfort as Clerk-Stenographer at this institution in Grade 2, with compensation at the rate of \$1620.00 per annum, pending authority for reinstatement in the Service, a recommendation for which will be forwarded in due course.

I would appreciate it if you advise me by wire when this recommendation has been approved and to have it effective from date of receipt.

Respectfully,

My dear Indian Director:

The Denver Oxygen Company and the Linde Air Products Company who are contractors for acetylene gas and oxygen gas under Contracts T-44- 104 and 105 respectively have notified me that under the code recently approved for their industries, a rental charge of one dollar per month must be imposed on all cylinders not returned within thirty days after delivery; that this provision is mandatory and is also retroactive, thus making it apply to existing contracts.

The new rental provision will apply particularly to the acetylene cylinders as the contract for this covers only large cylinders, containing from 50 to 300 feet at \$3.00 per hundred cubic feet, the cost being from \$7.50 to \$9.00. Acetylene gas is generally used in small quantities at a time, and a cylinder lasts approximately three months. At the end of the thirty day period we may have used but a small quantity of the gas and if we are to return the cylinders within the time limit, it might mean the loss of gas several times the value of the rental charge.

-2-

In view of the above facts I wish to ask if, during the remainder of the fiscal year, we may be permitted to pay the rental charge required by the code, when to do so would be more economical than to return them within the time limit with the consequent loss of the contents.

Respectfully,

Mark A. Skinner, Superintendent.

My dear Nathan Leonard:

I have to advise that the following change was made in the personnel of this Institution during the month of January 1934:

Wash. S. Dixon appointed temporary Stenographer-Typist at \$1320.00 per annum. Order dated February 14, 1934.

On February 14, 1934 compensation corrected to be at the rate of \$1420.00 per annum, retroactive from date of birth.

Respectfully,

My dear Madam Director:

Referring to the attached requisition for paper and envelopes I wish to state that our stock of paper is practically exhausted and the envelopes will all be used before a new supply can be received were I to wait until the first of next month, which is the regular time for making requisition for supplies. I estimate that the supplies asked for will meet our requirements until October first next.

With reference to the quality of the paper required for printing affidavits, etc. in connection with deposits of gold and silver, I have to state that the quality asked for will give very much better results on our multigraph printer than the very thin paper we have been using. Some of the affidavits through the wants of the new paper. With the heavier paper the printing can be done on both sides.

I will greatly appreciate your having the supplies procured with as little delay as possible.

Respectfully,

Clark A. Skinner, Superintendent.

Chief Clerk,
Treasury Department,
Washington, D. C.

Dear Sir:

Referring to your letter of the 1st instant relative to my Ordnance inventory for the period ended December 31, 1933, which you state shows seven waist belts and four cartridge boxes were listed as "lost or accounted" during said period, please be advised that the carbon copy of said report on file at this office does not conform thereto, there being 25 waist belts on hand and no cartridge boxes on that date, this being in agreement with my inventory for the period ended June 30, 1933.

I am enclosing copy of my report for the period ended December 31, 1933 and have to request that you will kindly return or destroy the report to which you refer which must have been sent you through some inadvertency.

Respectfully,

Mark A. Skinner, Superintendent.

No. Director of the Mint - 2

has heretofore been accepted without the information required by said paragraph H*, and application form for license enclosed for execution to her, from the postage within the Mint District of this State. She has also requested to advance if she desired the Mint to purchase the stamp, which would save her the expense of carrying same to her and then shipping it to the Philadelphia Mint for purchase. On February 21st, I received a communication from her regarding application for license which I had forwarded her and she requested that her request be returned with the stamp. I have since then been unable to determine the date of her receipt of the stamp, and I am unable to determine the date of her receipt of the stamp. I am unable to determine the date of her receipt of the stamp.

In view of the fact that the stamp is not a part of the revenue of the Government, and that the stamp is not a part of the revenue of the Government, it is not possible to determine the date of her receipt of the stamp.

Very respectfully,

Wm. A. Johnson, Superintendent.

Mr. Geo. Borstait, Jr.,
Foreman of Refinery,
U. S. Mint, Denver.

Dear Sir:

On December 29, 1933, while working in the refinery from 4 to 12 p.m., I slipped while climbing down from No. 3 copper tank, and landed heavily on my left heel on the cement floor. I felt no pain at the time. Next morning my left heel was very painful, compelling me to walk on my left toes. I was on leave on Saturday, December 30, and did not work on Sunday, December 31 or on January 1st, 1934. On Tuesday, January 2, 1934, I reported the accident to Mr. Borstadt, Foreman. I thought it was a small bruise and that it would heal up very quickly; but as the days passed and the heel seemed to get worse I decided I had better see a doctor about my foot. The only reason I did not see a doctor immediately was because I thought the injury was so slight that it would be necessary to have medical attention. It was only when the heel did not improve, but was getting worse, that I decided it needed medical attention.

Respectfully,

Harold B. ...

Hon. Mark A. Skinner,
Superintendent U. S. Mint,
Denver

Sir:

Relative to the injury to Henry S. Brandon, will advise, that the aforesaid claimed to have hurt his left heel while working in the refinery on December 29, 1933, 4 to 12 p.m., by stepping down from a short ladder attached to the side of a boiling vat, and landing heavily on his heel.

Mr. Brandon did not work December 30, 31, and January 1, on account of being on annual, holiday, and Sunday leave. On January 2, he reported to me that his heel was very sore, but kept on working. He said that by using home treatments of hot water, liniment, and rubbing, he could eliminate the soreness. He finally decided that he was not making any headway with the home treatments, and was sent to Dr. Hegner on January 11, 1934.

Respectfully,

E. Bratadur

Foreman of Refinery.

My dear Madam Director:

Referring to my letter to you under date of October 18, 1933, in reference to a deposit of placer gold for this institution by H. L. Damon of Silver City, New Mexico, and to your letter of January 13th, and my letter in reply thereto under date of January 26, will you please advise if this gold may be purchased at the higher price from Mr. Damon, it being in its natural state. As stated in my letters to you and in the correspondence which I have forwarded you from Mr. Damon, he required this gold prior to his knowledge that a record should be kept of the names of the persons from whom he acquired it, and he has therefore been unable to satisfactorily execute any of the forms which accompany deposits of this character.

In view of the length of time that these deposits have been held by the Mint, and in the belief that this gold was originally acquired by purchase to assist those who produced it in very small amounts, I would recommend that an exception be made in this instance as to the execution of Form TC-21, if this would appear proper under the present procedure. An early reply will be appreciated.

Respectfully,

Mark A. Skinner, Superintendent.

My dear Mr. Ross:

I have your letter of the 28th and note what you say in reference to Len Williams and Ernest Powell and have to advise that I have obtained the latter's resignation to take effect at the close of business April 17th and am forwarding same to you for your approval with a recommendation for the temporary appointment of Louis Williams as his successor, the Assistant Treasurer of the 13th District Savings and Loan Society, having informed me that there is no objection to this kind of appointment on the part of the general public. It is known that Powell has exercised a bad influence over Williams and that the latter will probably render better service than this influence has had upon him, and therefore his appointment will be for the benefit of the Society in view of his long service to this institution. I am aware Williams does not have a special improvement in his conduct, his resignation will be forwarded you in due course.

Referring to the position of bookkeeper at this institution, please be advised that on January 3rd last, I forwarded you my recommendation that Mr. William P. [unclear], who has been acting bookkeeper for quite a long period and whose services have been very

Director of the Mint - 2 -

Satisfactory, be assisted to this position without change in compensation, and I trust this recommendation will meet with your approval. However, in view of recent legislation I have to request to be advised if this recommendation could be amended to include a request that Mr. Macmaster's compensation be increased from his present rate of \$2500 per annum to \$3000 per annum which I believe is the entrance rate in this position. It will not be long I will forward you an amended recommendation accordingly, with receipt of advice from you to that effect, whereby your approval of my recommendation as submitted or amended will be appreciated.

I shall take the liberty to ask for any further information as to the interests of the public which may be involved in the proposed increment of \$500. Information which shall come with considerable interest, and will be most appreciated as to any definite questions have been reached in this matter.

Very sincerely,

WASHINGTON, D. C.

MY DEAR MADAM DIRECTOR:

I HAVE TO RECOMMEND THAT WILLIAM P. MUNCASTER AT PRESENT EMPLOYED AS CLERK IN THIS INSTITUTION WITH COMPENSATION AT THE RATE OF \$2300 PER ANNUM, BE PROMOTED TO THE POSITION OF BOOK-KEEPER WITH COMPENSATION AT THE RATE OF \$3600 PER ANNUM VICE HENRY J. DEMCKLA, BOOKKEEPER WHO WAS RETIRED ON JUNE 30, 1933.

I HAVE TO STATE IN THIS CONNECTION THAT MR. MUNCASTER HAS BEEN ACTING AS ASSISTANT BOOKKEEPER FOR A NUMBER OF YEARS AND SINCE MR. DEMCKLA'S RETIREMENT HAS BEEN DOING ALL OF THE BOOK-KEEPING WORK WHICH HE HAS PERFORMED IN A VERY SATISFACTORY MANNER AND I THEREFORE FEEL IT PROPER THAT HIS TITLE AND COMPENSATION SHOULD BE CHANGED ACCORDINGLY.

RESPECTFULLY,

MARK A. SKINNER, SUPERINTENDENT.

DEAR SIR:

I HAVE TO ADVISE THAT YOUR STATEMENT OF BULLION FUND CHECKING ACCOUNT SYMBOL 15127 FOR FEBRUARY 1934 SHOWS A BALANCE OF CHECKS OUTSTANDING IN THE AMOUNT OF \$496,530.24; THE ABSTRACT OF DEPOSITS RECEIVED ENDS WITH FEBRUARY 23, 1934 ALTHOUGH CHECK NUMBER 25909 DATED FEBRUARY 24, IN THE AMOUNT OF \$77,000.00 HAS BEEN INCLUDED IN THE LIST OF CHECKS PAID. IT ALSO APPEARS THAT MINOR COINAGE METAL FUND CHECK 25719 SYMBOL 15128 DATED FEBRUARY 10, 1934 IN THE AMOUNT 15¢ HAS BEEN INCLUDED WITH THE BULLION CHECKS PAID, SYMBOL 15127. THE TOTAL OF THESE TWO CHECKS ADDED TO THE TREASURERS BALANCE CHECKS OUR DETAILED LIST OF CHECKS OUTSTANDING.

THE MINOR COINAGE FUND CHECKING ACCOUNT SYMBOL 15128 FOR FEBRUARY 1934 SHOWS A BALANCE OF 15¢ IN CHECKS OUTSTANDING. ACCORDING TO OUR RECORDS THIS IS CHECK NUMBER 25719 WHICH HAS BEEN EARLIER ONLY INCLUDED IN THE BULLION FUND ACCOUNT AS ABOVE STATED.

MY DEAR MADAM DIRECTOR:

EXPLAINING THE DIFFERENCE BETWEEN MONTHLY REPORT TOTALS OF THE FINE OUNCES OF E. P. SILVER RECEIVED AS PER WEEKLY TELEGRAMS, AND MY TELEGRAM OF APRIL 24TH WHICH GAVE THE TOTAL FOR JANUARY, FEBRUARY AND MARCH, IS REQUESTED IN YOUR LETTER OF THE 23RD INSTANT, I WISH TO STATE THAT THE LATTER MESSAGE CONTAINS THE ACTUAL FINE COMBINED DELIVERIES DURING THE MONTHS STATED WHILE THE FIRST MESSAGE COVERED WEEKLY DELIVERIES AND WERE CONTAINING RECEIPTS OF OVERLAPPING PERIODS AND THEREFORE THE TOTALS ARE NOT RECONCILABLE WITH TOTALS WHICH ARE MADE UP OF RECEIPTS EXTENDING OVER SEVEN MONTHS. I HAVE HAD A RECHECK MADE OF ALL RECEIPTS DURING THE THREE MONTHS IN QUESTION AND FIND THAT THE DEPOSIT MADE BY THE HOME STATE MINING COMPANY CONTAINING 1,370 FINE OUNCES AND ALSO DEPOSIT OF THE UNITED STATES SMELTING AND REFINING COMPANY CONTAINING 70,084 FINE OUNCES, REPORTED IN MY MESSAGE TO YOU OF MARCH 16TH WERE THROUGH ERROR AGAIN REPORTED IN MY WEEKLY MESSAGE OF MARCH 23RD AND MARCH 30TH RESPECTIVELY. THE TOTAL OF MY WEEKLY MESSAGES FOR THE MONTH OF MARCH THIS REPORTED AN EXCESS OF 71,454 FINE OUNCES. MY COPIES OF WEEKLY TELEGRAMS FOR MARCH SHOW A TOTAL OF 909,898 - THE EXCESS AND SUBTRACTING 71,454 FINE OUNCES THEREFROM LEAVES A TOTAL OF 838,444 FINE OUNCES. THE VARIATION BETWEEN THIS TOTAL (838,444) AND 196,184 FINE OUNCES.

The ratio τ_{ij}/τ_{ij} is a constant, and the mean time interval τ_{ij} appears in the denominator of the ratio.

The statement that no direct telephone and radio contact was made between the suspect and the victim and the fact that the victim was not seen by the suspect until the day after the murder, are not sufficient to establish that the victim was not seen by the suspect until the day after the murder.

Washington, D. C.

My Dear Mr. President:

Enclosed please find a letter from me to the Honorable
John C. Stennis, Chairman of the Senate Committee on
Labor and Human Resources, dated May 4, 1954, in which I
expressed my views on the proposed legislation to amend the
National Labor Relations Act, 1935, as amended, to require
the filing of a statement of financial interests by certain
persons in the Government.

I am sure that the Honorable Stennis will be interested in
the views of the President on this matter, and I am sure that
the President's views will be of great value.

Sincerely,

However, the state is not a sovereign entity. It is a legal entity. It is a legal entity that is created by the state. It is a legal entity that is created by the state. It is a legal entity that is created by the state.

Yet the state is not a sovereign entity. It is a legal entity. It is a legal entity that is created by the state. It is a legal entity that is created by the state. It is a legal entity that is created by the state.

With this in mind, it is clear that the state is not a sovereign entity. It is a legal entity. It is a legal entity that is created by the state. It is a legal entity that is created by the state. It is a legal entity that is created by the state.

DIRECTOR OF THE MINT
WASHINGTON, D. C.

MY DEAR MADAM DIRECTOR:

REPLYING TO YOUR LETTER OF MAY 21ST AND 25TH, I HAVE TO REQUEST
THAT IN ADDITION TO THE ORDINANCE LISTED BY YOU IN YOUR REQUISITION TO
THE CHIEF CLERK OF THE TREASURY DEPARTMENT UNDER DATE OF MAY 25TH (OF
WHICH YOU ENCLOSED A COPY), THIS INSTITUTION BE SUPPLIED THE FOLLOWING:

2 U. S. RIFLES, CALIBER 22.

1000 CARTRIDGES CALIBER 22 AND TEN CONTAINERS FOR USE IN
INDOOR PRACTICE, IN CONNECTION WITH THE ABOVE RIFLES.

500 CARTRIDGES, GAUCH, CALIBER 30 - M-1906.

REGARDING THE THREE 38 CALIBER REVOLVERS ON OUR INVENTORY, PLEASE
BE ADVISED THAT THESE CONSIST OF TWO HURLING NO. 13749 AND 13776 AND
ONE SMITH WESSON NO. 104562. THESE ARMS DO NOT APPEAR FROM OUR RECORDS
TO HAVE BEEN FURNISHED BY THE WAR DEPARTMENT BUT WERE IN USE AT THE OLD
MINT BUILDING IN THIS CITY AND ARE BELIEVED TO HAVE BEEN ACQUIRED BY
PURCHASE.

I THINK THAT WE HAVE 25 HOLSTERS FOR 45 CALIBER REVOLVERS
AND SINCE THE WAR DEPARTMENT CANNOT FURNISH SHOULDER HOLSTERS THESE
BELT HOLSTERS WILL ANSWER OUR PURPOSE.

RESPECTFULLY,

MY DEAR MEXICAN DIRECTOR:

REFERRING TO YOUR ENDORSEMENT ON A LETTER OF O. GORDON
PICKETT WHICH IS HEREWITH RETURNED YOU, PLEASE BE ADVISED THAT WE
HAVE CHECKED OUR RECORDS OF THE WORK ON THIS BULLION AND FIND THAT
NO MISTAKE HAS BEEN MADE IN CONNECTION THEREWITH.

IT IS OF COURSE IMPOSSIBLE TO STATE WHY THE BULLION SHIPPED
TO THIS INSTITUTION, IF OBTAINED FROM THE SAME SOURCE AS THAT SHIPPED
TO THE UNITED STATES MINT AT SAN FRANCISCO SHOULD CONTAIN A LOWER
PERCENTAGE OF FINENESS. I MAY SAY HOWEVER, THAT THE STATEMENT MADE BY THE
WRITER THAT NO BULLION IN THE MEXICAN DISTRICT FROM WHICH HIS GOLD
WAS OBTAINED HAS EVER ASSAYED UNDER 94%, COULD PROBABLY NOT BE
SUPPORTED BY THE ASSAYS OF SUCH BULLION.

My dear Madam Director:

Answering your letter of the 28th ultimo I have to advise that Edward Jahl, 308 First Ave. N.E. LaMare, Iowa, was originally issued a license No. 1473-A on form TOL-4A under date of April 25, 1934, permitting him to acquire and hold not in excess of 25 ounces of fine gold. On June 1 he was issued license No. D-12-373 on form TOL-12 for 25 ounces of fine gold.

Respectfully,

Wm A. Skinner, Superintendent

My dear Madam Director:

Answering your letter of the 7th instant I have to advise that under date of September 27, 1933 license No. Pa 734, on form TGL-4A, was issued by the United States Mint at Philadelphia to Dr. Lewis J. Weisberg, 1500 Hennapin Avenue, Minneapolis, Minnesota.

Data on the reports of Dr. Weisberg discloses that he acquired and disposed of the following quantities of gold derived from dental scrap, broken-up jewelry, watch cases, optical frames and the like:

| | | |
|---------------|----------|------|
| October 1933 | 1 ounce | troy |
| November 1933 | 1 ounce | troy |
| December 1933 | 1 ounce | troy |
| January 1934 | 3 ounces | troy |

The audit sheet received in February from the Department with his file has no notations of irregularities other than delay in filing reports.

Under date of March 30, 1934, this office received a properly executed form, TG-12, being application for a new license, paragraph B of which form contained the statement that Dr. Weisberg is a dentist and a buyer of scrap gold. Paragraph C states he is doing business under the name of Dr. Weisberg Gold Refining Co. Since it appeared from his application that he was engaged in

Director of the Mint -2-

the dental profession and incidentally handles a little old gold
he was issued license D-12-765 covering ten ounces, this being the
minimum issued to any licensee.

Respectfully,

Mark A. Skinner, Superintendent

Director of the Mint
Washington, D. C.

My Dear Madam Directors:

Replying to your letter of the 4th instant with reference to a complaint made by Charles I. Auer, of El Paso, Texas, regarding the character of the license issued him and the number of ounces of gold he is thereby permitted to acquire and dispose of, please be advised that Mr. Auer's original file covering his old license issued by this institution on form TOL-44 was forwarded to the Bureau with all other files of licenses outside of this Mint District. In view of the fact that Mr. Auer resides within the district of the New Orleans Mint that office no doubt will have complete data on both the old and the new licenses and the applications submitted by Mr. Auer in the premises.

I may say in this connection that at the time Mr. Auer's first license was issued him on Form TOL-44, my investigation dis-

covered that he was a purchaser of scrap gold and desired to melt same before forwarding to this institution for purchase and that he did not do any refining of gold at that time and he was very insistent that he should be given the privilege of melting his gold before sending it to the Mint to determine its fineness in order to check the assays of this institution.

Respectfully,

Mark A. Skinner, Superintendent
